

Universal "Nun's Knickers" Donut Adaptor Ring

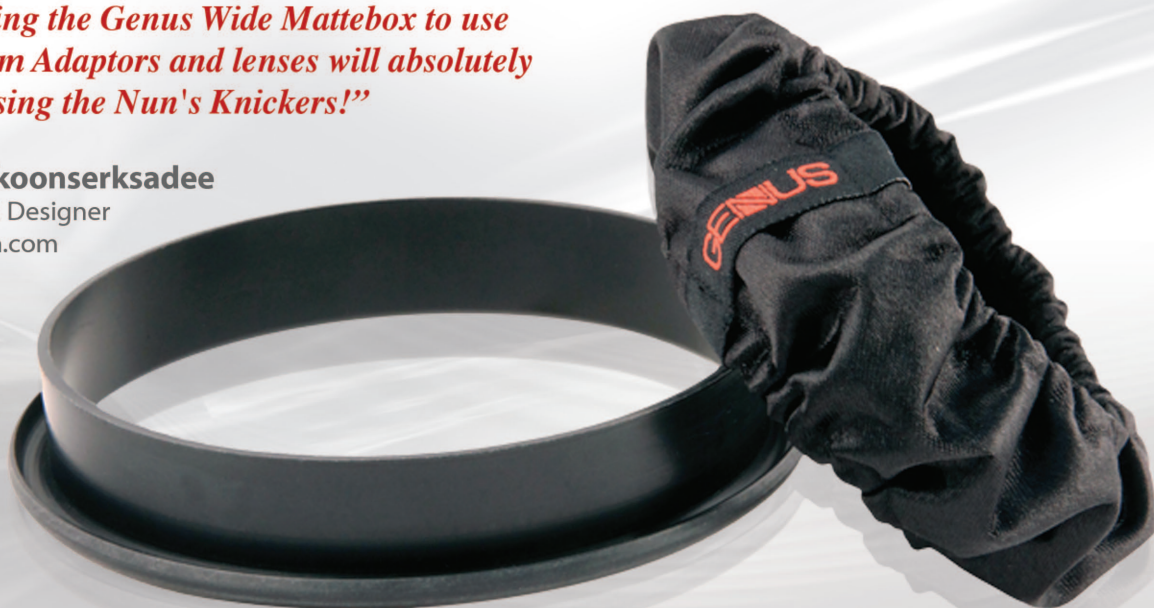

"Nun's Knickers" is an industry name given to this flexible donut adaptor ring. Fitting snugly into the back clamp ring of a Ø105mm matte box, the elasticated fabric can be stretched over your lens to completely prevent light leaks.

"Anybody buying the Genus Wide Mattebox to use with their 35mm Adaptors and lenses will absolutely benefit from using the Nun's Knickers!"
