## **Product Overview**

The LaCie<sup>®</sup> Rugged<sup>®</sup> USB-C portable drive marries rugged durability with cuttingedge USB-C. The result is a vault for your data that's compatible with next-gen computers like the Apple Macbook, as well as USB computers.

Featuring the market's highest storage capacity for its size, the LaCie Rugged USB-C gives you enough space to store your digital present — and future. Massive capacity lets you use the LaCie Rugged as a shuttle drive to transport footage from set to post-production or to store a huge Lightroom<sup>®</sup> library.

Creative pros have been depending on LaCie Rugged drives for over a decade because they are the most reliable way to transport and capture data in the field. With resistance to drops, crush, rain and unauthorised access, the LaCie Rugged USB-C is tough enough for extreme conditions — from a sudden rainstorm to a crush of suitcases in an aeroplane cargo hold.

## Armour for Your Data

- Drop resistance: 4-ft (1.2 m)<sup>1</sup>
- Crush resistance: 1 tonne car<sup>2</sup>
- Water resistance: rain
- Unauthorised access resistance: encryption available
- 2-year limited warranty including Rescue Data Recovery Services

#### 1 In non-operating mode

2 Determined by a test that approximates a real-world scenario in which the hard drive remained functional, despite aesthetic damage, after the product was driven over by an approximately 1 tonne car (1,000 kg/2,205 lbs).
