

Featuring an anodized black finish

Very high precision machined HD-SLR Cage

The cage also features an HDMI cable protector, plus windows that give you access to your camera's mode select knob, top LCD screen, battery compartment and CF card slot.

**A durable and compact alternative
to a full-scale DSLR video rig.**

The DSLR Cage for Canon Cameras from Proaim is a precision-machined, black-anodized aluminum framework designed to surround your camera, allowing you to mount a variety of accessories such as external batteries, recorders, shotgun mics, monitors, electronic viewfinders, on-board lights, and more while keeping the stress of the added weight away from your camera's hot shoe.

- ✓ A fully functional Rig
- ✓ Precision machined & light-weight construction & hard anodized black.
- ✓ HDMI Cable protector

✓ Features

- Newest model now accommodates Canon 5D Mark II and Mark III, Canon 7D, and Nikon D800 cameras.
- Available accessories such as battery mount & mini rod adapter.
- Multiple 1/4"-20 & 3/8"-16 thread holes for mounting accessories.
- Aligned cutouts allow operation of camera controls and viewing of LCD screen and most importantly allows changing battery without removing your camera.

Suits the needs of everyone from beginners to professionals.
