with cutting-edge IP workflow

Football/soccer module GUI shown

## **Streamstar® SCOREPLUS**

Easy-to-use software to generate network television style live sports graphics at an affordable price. IP technology, brilliant design, broadcast quality results.

# streamstar® SCOREPLUS

## Network TV style, real-time, sports graphics at an affordable price

**Streamstar® SCOREPLUS** blends groundbreaking IP technology with brilliant design to deliver highest-quality, easy-to-use sports graphics. Via the intuitive touch-screen GUI the user can quickly generate real-time, database driven graphics covering every aspect of the sport.

It is seamlessly integrated in the Streamstar live production SW that features an extra layer to ingest the SCOREPLUS IP output. It can be used as a standalone sports graphics solution with any NDI supporting production switcher.

## Local or remote production with IP/NDI workflow
