

Performance and Features

- 1 The three dismountable flags are all made of aviation aluminum alloy, easy to mount and dismount, and can be adjusted manually.

WONDLAN

- 2 The unique design of slots prevents easy dropping of flags.

- 3 The front diameter is 245mm – 160mm (9.6" – 6.3"); and back diameter is 140mm (5.5"); and the distance between the front and back is 115mm (4.5"), applicable to 16:9 wide angle lenses.

WONDLAN

- 4 4 kinds of rubber gaskets are available, with diameters of 51mm/2", 64mm/2.5", 76mm/3" and 103mm/4"

- 5 The matte box can be adjusted quickly in height to adapt to positions of different lenses.
